Big Snowstorm

Daryll Plowing

On groundhog day all the kids got to stay home from school because buses were cancelled because of a big snowstorm. Daryll did a great job plowing the roads, and told us that Wolverton Wally says that spring is coming soon this year. (For a close-up of Daryll – see the breaking news story from last week on our webpage)

Bald Eagle Sighting

I was surprised to see a bald eagle from my backyard. It was flying towards the west end of the village. I was surprised because the only place I've ever seen a bald eagle before this was at the zoo. A couple days later, while we were at the ice-rink, we saw

it again. There used to be lots of bald eagles, one nest per mile along the water, then European settlers cut down the trees and they became endangered. Now bald eagles are protected and there are now many more.

The Bazoo

Wolverton used to have it's own newspaper and it was called:

THE BAZOO

Ann Hoard gave us some copies of this newspaper. Thank you Ann! Every two editions we are going to include excerpts from it. Ann Hoard's mother is the birth

announcement below! Wolverton used to have it's very own store too!

Excerpts from April 1, 1931

Heard on the Party Line

A baby girl arrived at Geo. Hamilton's Saturday. Mother and daughter doing well.

Pure lard, 2 lbs., 25c; Falcon corn, 2 tins 25c; icing sugar, 7c lb., at Dawson's.

Jake Smith will be a year older tomorrow. Here's luck. Jake will be 78 years young.

Tidbits

Gail S. is having a nice sunny time in Florida while we are cold – lucky!

My parents had a Play in the Snow party. It was fun.

The Aikens have the best toboggan hill in town.

If you are using the ice-rink on the

irrigation pond the owner wants to make sure you know you are doing it at your own risk. Signs have been put up to tell you this, there is also a sign saying where not to go. Do not leave any garbage at the pond.

The Wolverton Whimsy now has a facebook page. Please like it and use it to let us know if there is news.

(If you have tidbits to share please tell us about them. We will not print anything about a person without asking permission)

Sammy's Thoughts

(Straight from the mouth of a 5 year old)

T-rex's face is so big and dinosaur bones turn into rocks. Even one dinosaur's neck is so big it's bigger than a T-rex. And fossils, when they are rocks, sometimes they break. And scientists learn about them. And say shapes of fossils are on them. And the footprints are so big, bigger than your foot.
